

Abhay Balakrishnan

Web Developer & UI/UX Designer | [linkedin.com/in/abhaybalakrishnan](https://www.linkedin.com/in/abhaybalakrishnan) | github.com/ABHAY-100 | <https://abhayyy.vercel.app>

Creative Web Developer and UI/UX Designer with a focus on front-end development, responsive design, and delivering intuitive user experiences. Experienced in applying modern web standards and accessibility principles to build engaging, visually appealing applications. Skilled in driving projects from concept to deployment, blending functionality, scalability, and design aesthetics.

Projects

Swift Summarizer Website

<https://bit.ly/Swift-Summarizer>

Developed a text summarization tool with React and Redux Toolkit, utilizing RapidAPI to quickly summarize news articles and website content, improving readability and saving users time.

EventSync

<https://bit.ly/EventSync>

Contributing as a frontend developer to the development of an open-source event management suite, enhancing the user interface to improve usability and accessibility. These enhancements aim to optimize event creation and management for future users.

Volunteering

IEEE SB I MEC - Graphic Designer

- Created visual materials for ICTEST '24 and MEC.CONF '24, boosting event visibility and engagement through effective design.
- Conducted a Figma workshop to educate participants on design techniques, enhancing skills across diverse audiences.

IEDC MEC - Frontend Developer & UI/UX Designer

- Designing and developing the user interface for EventSync, an open-source event management suite, focusing on improving usability, accessibility, and overall user experience.

Achievements

- Third Prize in Design Develop Deliver (D3) at EXCEL '23.
