

Abhay Balakrishnan

Frontend Developer & UI/UX Designer | abhayyy.vercel.app

I create user-friendly products by combining frontend development with UI/UX design, making sure people love using them.

Projects

Swift Summarizer Website

<https://bit.ly/Swift-Summarizer>

Designed and developed Swift Summarizer, a website that offers quick and efficient text summarization services.

ASTRA MEC Website

<https://bit.ly/Space-Club-Web-Design>

Designed the UI for ASTRA MEC, the space club at Model Engineering College, creating an engaging and visually appealing web presence for the club.

Alleviate Website

<https://bit.ly/Alleviate-Web-UI>

Crafted the landing page UI for Alleviate, connecting surplus food providers with those in need and ensuring an intuitive experience for visitors.

Volunteering

IEEE SB I MEC - Graphic Designer

- Designed graphics for ICTEST '24 and supported various college events with creative design solutions.

ASTRA MEC - Web Team

- Created a modern and minimalist landing page UI, enhancing the club's online presence and engagement.

Achievements

Third Prize in Design Develop Deliver (D3) at EXCEL '23.
