SKILLS

TECHNICAL
Front-End Development:
ReactJS • Javascript • HTML
CSS • Tailwind CSS
Back-End Development:
C/C++ • Nodejs
Database Management:
SQL
Design Tools:
Figma
Version Control:
Git and GitHub

NON-TECHNICAL
Leadership
Communication
Presentation

CERTIFICATIONS

Responsive Web Design
Participation in Designathon'24

VOLUNTEERING

IEEE MEC SB - Graphic Designer
ASTRA MEC - Web Developer
MACS MEC - Web Developer

PROJECTS

ZENFLOW
NextJS • Figma
- Designed ZenFlow, a yoga app developed as part of D3, a competition held during Excel '23 at Model Engineering College.
- Created the website using Next.js, ensuring smooth navigation and accessibility for yoga enthusiasts.
- Simplified user experience for seamless sign-up and browsing of yoga sessions on ZenFlow, fostering relaxation and wellness.

PRISM
Figma
- Designed Prism, an AI prompt marketplace during Designathon '24, featuring a sleek monochrome design for visual aesthetics.
- Simplified the buying/selling process for prompts, ensuring a hassle-free experience for users.
- Enhanced user satisfaction through organized categories, secure transactions, and community engagement features.

MECO
ReactJS • Figma
- Conceptualized, designed, and currently developing meco, a mental health platform that utilizes innovative technology to connect individuals in need of support with empathetic listeners.
- Planning to implement sentiment analysis models for priority of messages and content moderation models.

ALLEVIATE
Figma
- Designed a captivating landing page and user-friendly login page for Alleviate, connecting surplus food providers with those in need.
- Made it easy for visitors to learn about Alleviate and join the community.

EXPERIENCE

ICTEST '24 | GRAPHIC DESIGNER
April 2024 | Model Engineering College
Collaborated with the team to create visually captivating branding materials for ICTEST '24, an IEEE Conference hosted by IEEE MEC SB, ensuring alignment with event goals.

ACHIEVEMENTS

3rd Prize   D3   EXCEL MEC
